Nigrelli ITL 15 & ITL 25 Integrated Top Load Case Packers are the ultimate solution for automating your packaging process. These cutting-edge robotic or gantry case packers are designed to effortlessly load your products into RSC or HSC cases. With a wide range of pick heads, including vacuum, mechanical, and combination vacuum/mechanical styles, we can handle virtually any type of product. Our top load case packers are not only versatile, but also perfect for a variety of case styles. From tear-out display cases to HSC with available case lid attachment, we've got you covered. You can confidently package cartons, tubes, pouches (both flat and stand up), jars, F-style jugs, and round bottles with ease.

Nigrelli ITL 15 / ITL 25 Integrated Top Load Case Packer

DESCRIPTION

Our ITL 15 and ITL 25 solutions are the perfect choice for any production environment. With their low, ergonomic KD case magazine, compact design, and customizable options including dry, wash-down, or caustic wash-down constructions, these solutions are truly versatile. Experience the convenience of multiple infeed configurations and the ability to effortlessly feed bliss cases or trays into the system. Case opening is securely handled with opposed vacuum cups and positive case transfer with servo-driven side belts. Choose between standard tape or the optional hot-melt closure for case sealing. Plus, enjoy the ease and speed of tool-less changeover with our convenient hand crank handles.

And that's not all - the ITL 25 system takes it a step further with high-speed case set-up, ensuring increased throughput capacity. Upgrade your production efficiency today with our state-of-the-art ITL solutions.
