

Company Profile

BW Integrated Systems is an industry leader in the design and manufacture of end-of-line packaging equipment and robotic automation solutions, as well as the execution of integrated packaging systems. Our company attributes its decades of success to three simple principles: People, Products, Performance.

We serve our clients with over 750 dedicated and fulfilled team members around the Globe. BW Integrated Systems is led by a strong team of packaging industry veterans whose experience and strategic vision have enabled the company to grow, adapt and meet the ever-changing needs of our diverse customer base.

Leading the Way in Packaging Solutions and Systems Integration

People

Striking the appropriate balance between a people-centric culture where everybody matters, and industry-leading performance is core to our business. As our Chairman Bob Chapman always says, "We measure our success by the way we impact others." As a member of the Barry-Wehmiller family of companies, BW Integrated Systems strives to be the kind of company that enables its associates to return home each day with a true sense of fulfillment. Our mission is to be the kind of company that people enjoy working for, doing business with, investing in, and having as part of their communities.

Products

Our diverse product portfolio consists of trusted legacy products, innovative solutions and integrated packaging systems. Our service network provides global technical support and offers peace of mind for a diverse client base that operates in a variety of global market segments which include: Food, Beer and Beverage, Wine and Spirits, Container Manufacturing, Automotive, Household and Personal Care, Dairy, Paper, Pharmaceutical, Industrial, Consumer Mailing and Collating.

Performance

BW Integrated Systems has the decades of application experience in packaging line design, packaging line integration, robotic automation, and in the design and manufacture of innovative packaging equipment. BW Integrated Systems has packaging equipment and systems integration installations in over 50 countries around the world. With seven manufacturing facilities and over 800 team members worldwide, BW Integrated Systems is a trusted global partner for our clients, which range from family-owned and mid-size companies to multi-national corporations.

Products and Solutions

End-of-Line Packaging Equipment

BW Integrated Systems offers a diverse line of innovative packaging equipment. Primarily focused on end of line equipment and conveyance, we design and manufacture both fixed automation and robotic solutions to handle our client's packaging equipment needs:

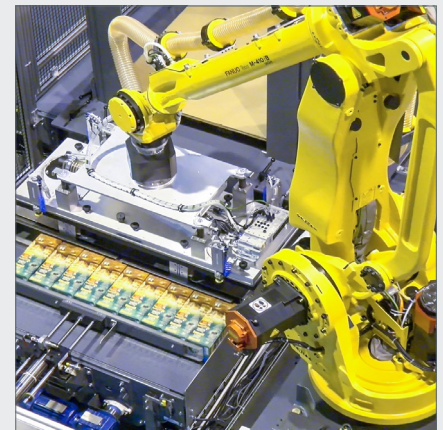

Case Packing and Cartoning | Case, Tray and Bliss Forming
Shrink Bundling and Wrapping | Feeders and Placers
Palletizing and Depalletizing | Conveyor and Line Controls
Pallet Unwrappers and Destrappers | Pallet Handling
Auto Truck Loading/Unloading | End and Lid Handling Systems

Robotic Automation

With over 400 robotic installations in 13 countries, BW Integrated Systems is one of the largest and most respected suppliers of robotic automation in the Global packaging industry. Able to integrate robots from any of the major robot OEMs, we have an experienced team of designers who instill trust in our clients around the world. BW Integrated Systems offers a variety of innovative robotic solutions for both case packing and palletizing. From mid-speed to high-speed palletizers that handle single lines or up to 8 lines at a time, BW Integrated Systems is one of the industry's most trusted suppliers of robotic case palletizing. Robotic top load case packing for both rigid and flexible products and robotic depalletizing are also core competencies of our team.

Electrical Controls and Line Monitoring

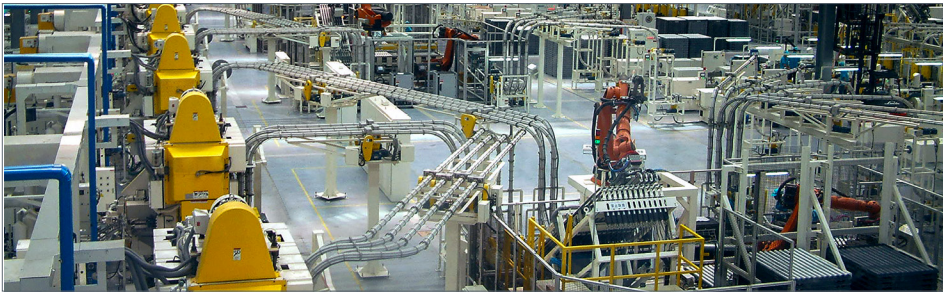

Today, our clients are looking for a higher level of connectivity and actionable data. We understand that electrical controls and line monitoring are components of integrated systems. Utilizing our extensive electrical engineering design expertise and state-of-the-art technology and control devices, we provide superior control systems to handle the smallest, custom machinery to the most complex packaging line. Providing monitoring and diagnostic information is of the utmost importance in designing and managing packaging operations. BW Integrated Systems has partnered with market intelligence leader LineView, one of the world's leading suppliers of line monitoring software, to provide seamless access to actionable data.

Systems Integration and Global Markets

Systems Integration

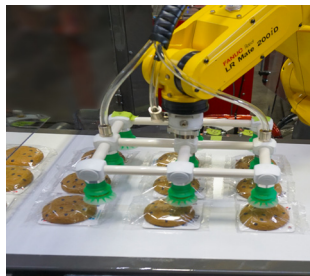

Seamlessly designed integrated packaging systems are critical to our client's success. With over 40 years and thousands of man hours of experience, BW Integrated Systems is one of the most trusted systems integrators in the Global packaging industry. Whether you are implementing a new packaging system or are ready to optimize an existing system, BW Integrated Systems has the proven talent and experience to provide integrated systems that meets your needs and exceed your expectations. The BW Integrated Systems team also works seamlessly with other industry-leading OEMs to ensure that we provide our clients with best-in-class solutions.

Global Markets

BW Integrated Systems provides diverse solutions to a variety of market segments around the Globe:

- Container Manufacturing
- Food
- Beverage
- Beer
- Dairy
- Wine and Spirits
- Home and Personal Care
- Industrial and Automotive
- Paper
- Bakery and Confectionary

Global Manufacturing

BW Integrated Systems has seven global manufacturing facilities.

- Romeoville, IL USA
- Doncaster, S. Yorkshire UK
- Fergus Falls, MN USA
- Loveland, CO USA
- Lynchburg, VA USA
- Minneapolis, MN USA
- Reedley, CA USA
