Video 

Our Nigrelli Flexi-Packer Robotic Case Packers are expertly crafted to handle a wide range of products, from cartons and trays to bottles, bags, chubs, and even stacks of paper. Our in-house team of engineers has designed custom end-of-arm tooling to ensure seamless handling. With our vast experience in successful robotic applications, we will help you design a tailored solution that perfectly meets your unique packaging requirements.

Nigrelli Flexi-Packer Robotic Case Packer

DESCRIPTION

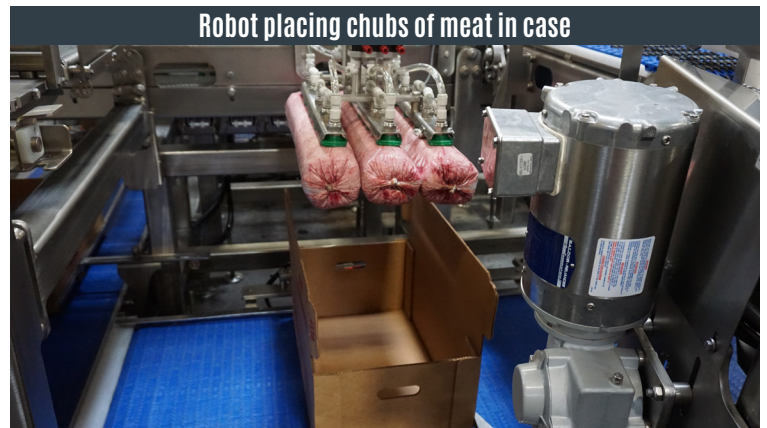

Utilizing our extensive range of products, we seamlessly incorporate all ancillary equipment, including case or tray erectors, conveyors, case sealers, shrink bundlers, and palletizers, to create a comprehensive packaging solution. Our robotic packing systems offer unparalleled flexibility while maintaining a compact design that easily adapts to challenging floor space requirements. With minimal maintenance and maximum adaptability, our robotic solutions offer future flexibility.

FEATURES

- Flexible throughput rate
- Touchscreen control
- Flexible pack patterns
- Compact footprint
- Precision robotic arm
- Packs various RSC, HSC, and display-style cases and trays
- Gentle product handling
- Bag shingling
- Inline or right angle product infeed
- Automatic case positioner
- Rugged, reliable low-maintenance construction
- Polycarbonate interlocked safety guarding

AVAILABLE OPTIONS

- Automatic changeover of robotic end-of-arm tooling
- Stainless steel construction
- Multiple floor plan configurations
- Integration into existing equipment
- Cold room insulation package
