XTR Retractable Dropper

Wi-Fi

Overview

Streamfeeder's high-performance XTR Retractable Dropper batch counting system is designed to maximize your throughput, assure count accuracy, and eliminate rework by automating your batch counting jobs. The modular design allows the XTR to be easily integrated with equipment such as banders, collators, flow wrappers, poly baggers, shrink wrappers, cartoners, and order fulfillment systems.

The Streamfeeder XTR batch counting system includes features such as servo motor and drive, application based controls, diagnostics and reporting. Wi-Fi enabled controls allow you to set-up and adjust the XTR from an app on your phone, tablet or laptop. You can view real-time reports allowing you to track productivity, quality and efficiencies.
